Dear Class of 2010:

Congratulations on your graduation from Stoughton High School! I know that you and your families and friends are all very proud of your achievements in academics, performing arts, athletics and extracurricular activities here at Stoughton High School. You have worked hard, overcome many obstacles and enhanced the school culture in many ways. I hope that you have enjoyed many memorable and joyful times during and after the school day from those first days of freshmen year to the Spirit Week and Senior events this spring..

The Class of 2010 is a wonderful group of students and I have so enjoyed having you here for the past four years! Thank you for all of your contributions in the classrooms, throughout the campus in extracurricular activities, and in service to the community at large. You all have very promising futures ahead!

On behalf of the faculty and staff at Stoughton High School, best of luck to you as you go off to college, the military or into the workforce. I hope you will maintain a strong connection to this high school and this community throughout your lives. You will be missed!

Best wishes,

Brett Dickens

MARGUERITE C. RIZZI, Ed. D.
SUPERINTENDENT OF SCHOOLS

Dear Members of the Class of 2010,

As the Superintendent of the Stoughton Public Schools, I wish to congratulate you, the members of the class of 2010, upon the successful completion of your high school career. You have worked very hard to fulfill all of the requirements for graduation from Stoughton High School, and you have done it with grace, excellence and commitment.

Throughout your high school years you have exhibited a commitment to achievement through academics, the arts, athletics, community service and many fields of endeavor. The Stoughton School community, all of your teachers, administrators and the entire staff are very proud of you.

Your parents and other members of your family also share in your accomplishments. Their love, understanding, and support have allowed you to grow into the young men and women that you are today, and we know that they, like us, are justly proud.

You graduate in a time of financial uncertainty and a changing world. I have great confidence that with the skills, knowledge and maturity that you have gained while in the Stoughton Public Schools, you will make a bright future for yourselves in an exciting and increasingly global and technological environment. I wish you success, happiness, good health and good fortune as you move on to the next phase of your life, and beyond. You have made your school, families and community very proud.

Sincerely,

Dr. Marguerite C. Rizzi
Superintendent of Schools

Historic Landmarks
EXIT 2010

The following seven faculty members have taught at Stoughton High School for numerous years. Now, they are retiring to begin on a new path in their journeys. We would like to thank these teachers for the lessons they've taught us and the memories they've helped create, and also to wish them luck wherever the road may take them!

Joyce Lewis

Ms. Lewis has been teaching Spanish and French, for thirty-two years. She also coached JV girl's basketball. Ms. Lewis says that one memory of her time at SHS was the time the girls' team missed winning first place in the Hockomock league by one point, with a score of 21-20. With her new time, she plans to work part time and hang out with her family and friends.

David Tucker

Mr. Tucker has been teaching in the Social Studies department for 28 years, since 1983. Early in his career, he coached boy's tennis and girl's varsity basketball. He was also the adviser for a group called Close Up, which organized a student study week in Washington D.C. He has had so many memories and met innumerable wonderful students throughout the years. After retirement, Mr. Tucker plans to travel, play golf, and volunteer around his community.

Sheila Field

Mrs. Field has been a dedicated educator for 37 years in Stoughton. At the Jr. High, Middle School, and High School levels she taught Public Speaking, Dramatics, Video Production, and English. She produced and directed plays, musicals, puppet theater, and a video magazine. Additionally, she served many years as adviser to the classes of 2000, 2004, 2007, and the Fruition Scholars program. She thanks the many staff members, students, and friends past and present that made each year special and who have been helpful in so many ways.

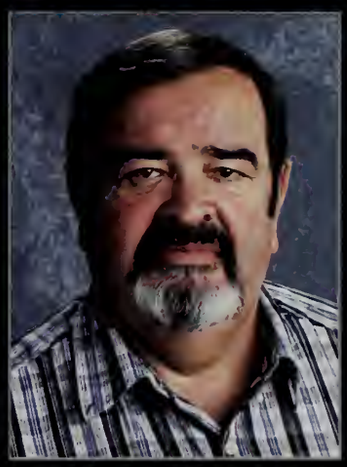
Happy trails to you...

Helen Rabouin

Mrs. Rabouin began teaching at the High School in 1973 and is retiring as the Director of the Business, Tech, & Media Department. She has thoroughly enjoyed her teaching career at SHS. She has taught many varied Business, Tech, and Math classes. Ms. Rabouin will truly miss the wonderful administrators, teachers, and students that she had the pleasure of working with. In her free time, Mrs. Rabouin plans to spend more time with her parents and her family. She is currently looking forward to the planning of a June, 2011 wedding for her daughter.

Anthony DeSerpa

Anthony DeSerpa has been a school psychologist in the special education department for thirty one years. He travels to all the schools in Stoughton, but has been stationed at the high school for about seven years. Mr. DeSerpa's favorite memories include working with all of his students. He will miss all the wonderful people he has worked with over the years.

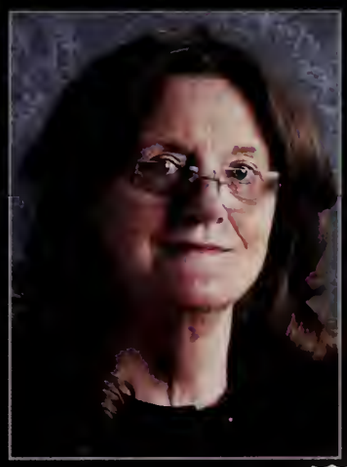


Patti Sullivan

Ms. Sullivan has been a teacher in Stoughton for thirty five years. She has taught both middle school and high school. Currently she teaches Chemistry at SHS. Her favorite school memory was when Dr. O'Donnell, the former principal, asked her to sew his suit pocket because he had forgotten to put his pipe out before placing it in the pocket and it burned through.He was trying to keep his wife from finding out he was still smoking! Ms. Sullivan will greatly miss the interactions with her students and the staff. In her spare time, she plans to travel and work part time.

Pam Poillucci

Ms Poillucci has been teaching at SHS for 36 years. The first 25 she worked as a teacher's substitute. She added Special Education to her certification and finished her career at SHS as a Special Ed teacher. Ms P totally enjoyed the students, the teachers, the whole learning/teaching experience. Ms Poillucci will miss SHS but assures all that she will not be bored in retirement. 'There are rooms to decorate and there are books to read.'



Until we meet again...

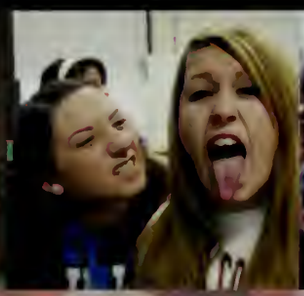
Next Exit



It's been an interesting ride, picking up friends along the vay and accelerating towards graduation. Looking back in he rearview mirror, we see the places we have been, the potholes we have dodged, and the tracks we have left behind. We survived the discomfort of freshman year gym class, disected animals in sophomore biology, and finished he infamous SAT's in junior year. Of course, we will never orget the 4 years of clubs, tests, dances, spirit weeks, and he other fun pit stops we made. Now, it's time to move into he fast lane to cruise down this highway called life.

Alysa Abbondandolo

I would like to thank my parents for guiding me to be the person I am today. To Mr. Shuel and all of my ESL friends, you have shown me all the wonderful cultures of the world, thank you. To Pahola and Kasia: thanks for showing me the way.

Take time to live, to laugh, to love; In that order, all of the above. For if not, time flies by, and soon you'll see. How fast this year was for you and me. So right here and now, let hands show. How much we all learn and grow. On our way out, we'll be glad to see. All of us took that time to be. No regrets. No frowns. No tears. No, that's not allowed. But Class of '10? Yeah we're that crowd.

POWDERPUFF '10!

SHS Black Knight girls defeat the Canton Bull Dogs!

The Class of 2010 Powderpuff game took place on November 25th, 2009, and we had an amazing game that will be a lasting memory. The girls worked hard through the practices in the cold rain, even when they were too tired to run, and the boys spent weeks practicing their clever routine. We'd like to thank our coaches Loud, Murphy, and Parker, and all of the football boys and cheerleaders who helped make Powderpuff '10 such a great experience! "One Oh, You Know!"

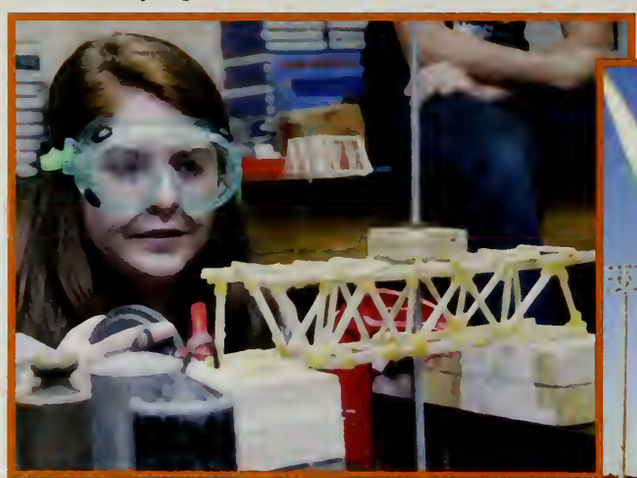
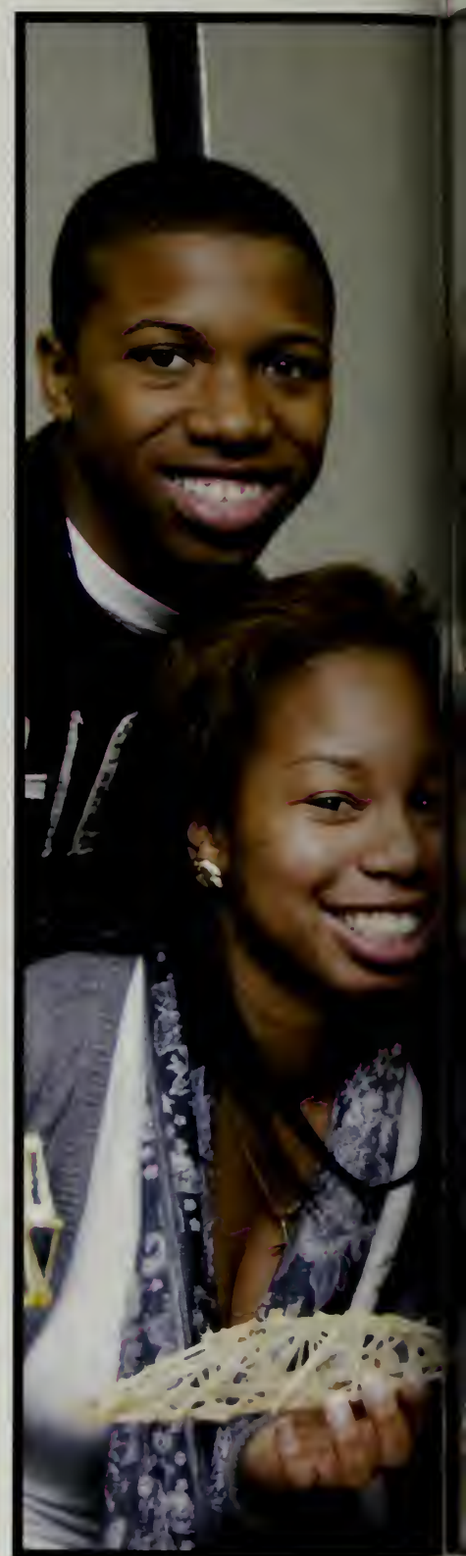
Bridge Day & Bottle Rockets

Bridges and Rockets are two projects done in Mr. Carey and Ms. J. Sullivan's honors and college physics classes. The bridges are made out of toothpicks, and must be designed and built to hold a minimum of 3 kilograms. (An A+ is 13 kilograms!) The bottle rockets are made out of two liter soda bottles and are tested to see how long they can stay up in the air before floating back to Earth. To receive an A+, the rocket must stay up in the air for 13 or more seconds!





From top to bottom: Jessica and Anika laugh anxiously as they wait to launch their rockets. Cindy is amazed by the weight her bridge can hold. Jeff is standing tall after his successful flight.

Life in the Fast Lane

Stoughton High School is a busy place. From the first day of freshman year to graduation, Stoughton students work hard in classes while also participating in clubs, sports, field trips, and volunteering. Although it seems like you are living life in the fast lane, remember to take it all in. Never forget the people who gave you directions along th way. Its not the destination, but what you make of the ride!

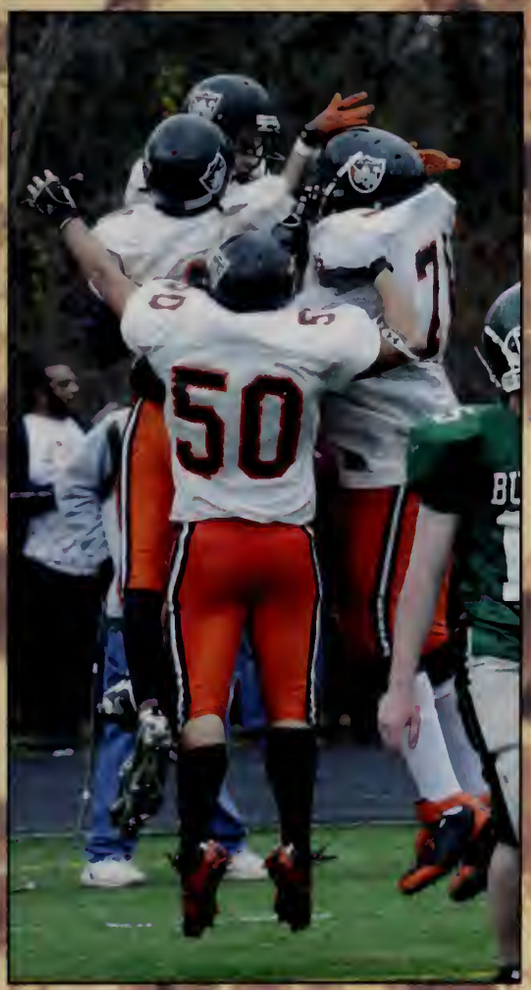
Bringing It Home For Thanksgiving

Thanksgiving Day is one of the biggest events of the school year. Th 84 year tradition brings out friends, family, faculty, students, and alumni to watch the Stoughton High School Varsity Football Team play our rivals, the Canton High School Bulldogs. This year the Knig blew away the Bulldogs on their own turf with a score of 25-0.

Caution Falling Hammers

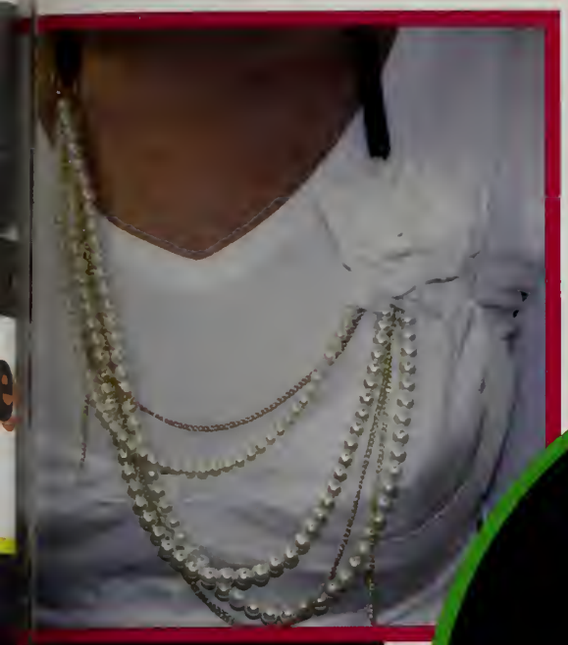


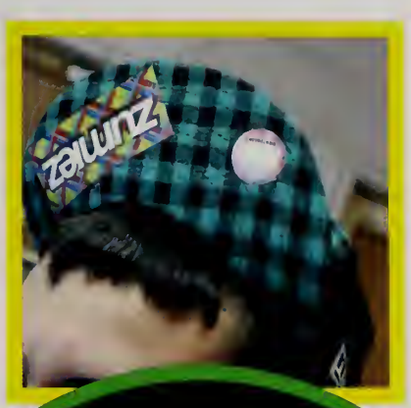
What's in your suitcase?

One of the oldest trends becomes 2010's newest fad, flannels are back in style everyone!

No, ladies and gentlemen, skinny jeans are not only for girls anymore! This combination with a matching pair of Vans gleams SHS fashion.

A sheer white pocket tee is paired with a black jacket, beaded silver belt, and black leggings. A long white necklace finishes this trendy look.





2010's Latest Fashion

Science Fair

Where will the sciences take you?

Stoughton High School's 52nd Annual Science Fair is an event where students grades 9 through 12 participate in events with either group or individual projects. In addition to the projects in the past years, many new events were held to expand the fields of science exhibited this year. The students that partake in the science fair set up their projects all throughout the building, while being judged by teachers and volunteers. The students that participate this year showed great effort and determination which was proudly shown throughout every project.

Grand Award: Lianna Tilton for "Paddle Power", **Team Award:** Dahlia Kushinsky & Shaul Kushinsky for "Zit Busters", **Forensic Science Event:** Trevor Derochea & Ethan Harpel, **Robotics Event:** Alex Kniazev, **Elevated Bridge Event:** Sarah Detore & Michelle Brauneis, **Safety Poster Event:** Dylan Lane, **It's About Time Event:** Scott O'Neil & Frank Marcotti, **Mouse Trap Racer Event:** Andre Tran & Paul Clermont, **Wind Power Event:** Shaybre Davis & Nicole Sellitto, **Program Cover Contest Winner:** Julianne Cardella.

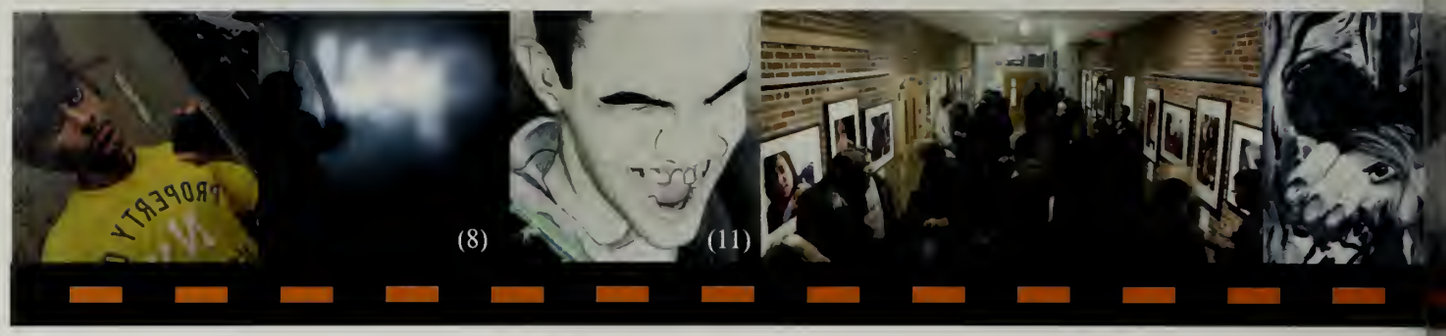
SHS Students get involved!

oughton High students still find time to elp out their community even with their busy hedules. The community sends thanks to all e hard working students who have gone bove and beyond to volunteer their time nd services.



Visual Arts

Along side the academics and extracurriculars comes the fantastic Visual A program to round out the Stoughton High experience. Every day over a quarter of the student population rolls up their sleeves to build on their abilities and understanding in the visual arts. Stoughton's award winning visual art program is taught by three experienced and dedicated educators David Wall, Alyssa Dancey, and Mark Craig. Each give generously of their tim to help these young minds find their muse. The students' amazing art worl and photography are hung around the buildings for everyone to see so students get all of the credit and exposure they deserve.

2011 miles to go...

The Junior class has finished three years at SHS and only have one more to go! With the relief of the hardest year being over, class of 2011 is looking forward to senior activities such as spirit week, prom and graduation. They tackled their academics and made it through semester by semester. Memories have been made throughout the years to last a lifetime. They are ready for senior year!

2012 miles to go...

No longer freshman, not yet upperclassman, Class of 2012 experiences high school as a journey that's only half way over. Already beginning to worry about SAT's, GPA's, and who will be their date for junior semi, Sophomores know what to expect in high school but still have a long way to go. Sophomores stay strong through the years, making memories they'll never forget.

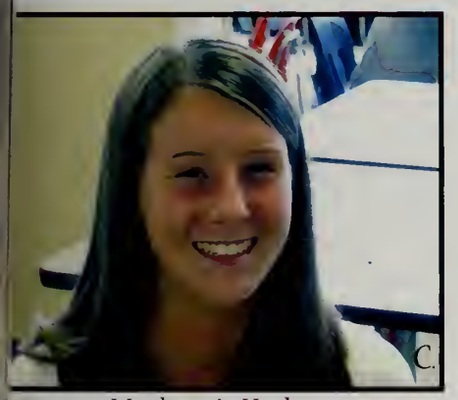
Are We There Yet?

Match the quote to the underclassmen...

Bobby Johnson

Kasey Derochea



Mackenzie Hudson

Kelly Collins

What has been your most embarrassing high school moment?

1. "When I was in the lunch room, I was about to sit down but then someone pulled the chair out and I fell."

2. "I moved in my chair and it made a farting noise, so I tried to recreate the noise. I failed."

3. "Everyday- you go to say 'hi' to someone and they don't see you so they don't wave back."

4. "I got hit in the head with a locker and my head was bleeding and I had to go to the hospital."

5. "When I walked out of the bathroom with my skirt in my leggings."

You know you're an underclassmen when...

6. "You go to the wrong lunch and classes."

7. "You've heard about the pool on A4th."

8. "You have to get the water for the varsity team."

9. "You still think there is a bathroom on D3rd."

UNDERCLASSMEN 2011, 2012 & 2013

The underclassmen pass time throughout the day by laughing in the hallway, socializing at lunch, gossiping with friends and letting off steam between classes!

Even though grades will always be most important, the underclassmen know how to shake it off and have some fun too! We've made so many memories and have so many more to come.

SHS SPORTS

Whether on the diamond, the track, the field, the court, the pool, the ice, the mat, or the green, Stoughton High School athletes have shown great dedication and strong will. Throughout the excruciating practices and intense games the Black Knights have proved their name. Both JV and varsity teams have created a bond with one another that can be found no where else. Captains display great amounts of leadership and every team shows respect towards one another no matter what.

"The spirit, the will to win, and the will to excel are the things that endure. These qualities are so much more important than the events that occur."
-Vince Lombardi

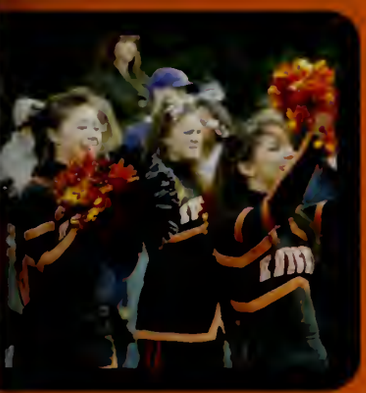
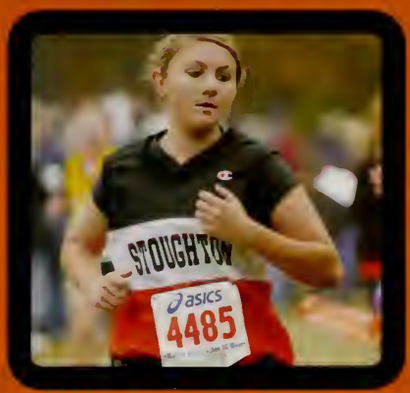
SHS ATHLETICS

No matter how cold, how hot, or how unbearable the conditions are, we always put in our best effort and sacrifice our bodies for our teams. No matter what the scoreboard says, we know that we did everything in our power to come out on top.





RoadSide Attractions:

There are some activities that we just can't always fit into our six period school days. These extracurricular organizations not only provide fun, interesting experiences, but also build character and broaden horizons. Each club demonstrates four things to meet their goals, win their competitions, and enjoy themselves; these things are **devotion, dedication, desire, and drive.**

Dedication to Haiti

On January 12, 2010, at 04:53:10 (EST) a magnitude 7.0 earthquake hit Haiti, destroying homes, communities, businesses, and lives. Stoughton High School came together by creating fundraisers to raise money and awareness for this awful incident. Our thoughts and prayers are with Haiti and the families effected by the tragedy.

We dedicate the 2010 yearbook to the victims of the tragedy and their families as they recover.

THANKS!

The committee of the Stoughton High School Yearbook would like to thank all of the businesses, parents, and guardians who purchased an ad in the 2010 Stotonian. Without your help and support this yearbook would not be possible. We greatly appreciate your contributions!

Jeffery Twerago

Jeffrey, you always fill us with such love, joy and pride!
Congratulations! We hope all your dreams come true!
Love, Mom, Dad, Maria and David

Class of 2010!

Adam Faria

Adam,

Here you are a senior, we can't believe it. The time has gone by so fast. When we look back it seems like yesterday you were born. You were welcomed home by an active 18 month brother "Frankie" and two teenage sisters Melissa and Mandy, our house was a busy one. Yet somehow you were the one that always brought calm to our crazy house. You were like a rainbow after the storm, you made us stop and relax and as you got older you made us laugh and you still do. We are so proud of whom you have become. Your loyalty, honesty and your caring way is how everyone has come to depend on you, especially helping raising your nieces Samantha and Riley. With those qualities you have made our lives so much easier and happier.

In the spring you'll end a chapter of your life and start a new one. One that we know if you stay true to yourself life will bring you much success and happiness. You have already brought us so much love, laughter and happiness. Your smile gives us comfort, your voice gives us strength, and your presence gives us hope in our future and yours.

Love you forever,

Mad for iPad

Apple unveiled its highly anticipated iPad this year to mixed reviews. Many Apple devotees were excited about the tablet with its nearly 10-inch touch screen and 3G connection, while others were skeptical about the name and data plan. As part of the iPad, Apple also released the iBook, an application that allows users to see books on a shelf, change fonts, and touch the screen to turn pages.

Goodbye Good Morning America

In a teary farewell, Diane Sawyer said "goodbye" to *Good Morning America* and "hello" to ABC's *World News*. After more than 10 years on the weekday morning show, Sawyer replaced the retiring Charles Gibson as the anchor of the nightly news program. Sawyer's replacement was George Stephanopoulos, former President Clinton staff member and moderator of *This Week* on ABC.

Fall of the Wall Remembered

Twenty years ago the Berlin Wall fell, marking the end of the Cold War and the divide between East and West Germany. To celebrate the anniversary, thousands of German citizens celebrated as 1,000 towers, all 8 feet tall, were toppled to symbolize the destruction of the dividing wall. The celebration was overseen by current German Chancellor Angela Merkel and former Russian leader Mikhail Garbachev, who many hold responsible for reforming the former Soviet Union.

Frightening Flight

On Christmas Day 2009, a Nigerian man attempted to blow up a flight carrying nearly 300 passengers from Amsterdam to Detroit, Michigan. Umar Farouk Abdulmutallab had a bomb sewn into his undergarments and tried unsuccessfully to detonate the devices as the plane made its final descent. Stringent security precautions were put into effect and President Obama ordered a thorough review of safety regulations. Al Qaeda later claimed responsibility for the terrorist act.

Linking Languages

Historically, URLs have been constructed with Latin based characters like 1, 2, 3 and A, B, C. Now, after approval by the International Corporation for Assigned Names and Numbers (ICANN), domain names will appear with other characters from Arabic and Chinese languages. The chairman of ICANN, Peter Dengate Thrush said, "The coming introduction of non-Latin characters represents the biggest technical change to the internet since it was created four decades ago."

Palin Resigns

Alaskan Governor and 2008 Republican Vice Presidential candidate Sarah Palin resigned from office, saying that Lieutenant Governor Sean Parnell would "fight even harder" for Alaskans. Palin added that her decision was made to protect her family from further criticism and would also allow her to advocate for causes such as energy independence and national security. In January 2010, it was announced that Palin would join Fox News as a contributor.

Be Mine

Sweethearts®, the popular Valentine's Day treat, added a new phrase to its line of endearing candy love messages. Teaming up with the social-network, Twitter, the candy company started stamping "Tweet Me" on its heart-shaped candies. Sweethearts also plans to introduce a new iPhone app that would allow users to send electronic versions of the candy with personalized messages to friends' Twitter pages.

On Shaky Ground

The South American country of Chile was the target of an 8.8-magnitude earthquake that destroyed many villages in its path. The next day the same south-central region of the country was struck again by a tsunami that created waves over 18 feet high. Approximately 800 people lost their lives and the destruction between the two natural disasters brought widespread shortages in food.

NYC Flyover

Workers in Manhattan, New York were panicked as a Boeing 747 and an F-16 aircraft circled the Statue of Liberty, causing many to fear a repeat of the 9/11 attacks. It was later discovered that the planes were official government aircrafts conducting a photo shoot. The official who approved the fly-over later resigned.

Electronic Text Books

College students caught a break this year—with free text books. Flat World Knowledge allowed 40,000 students at over 400 colleges and universities to access their course materials online, for free, saving students nearly $3 million in the fall semester alone. With other options like print-on-demand and integrated audio and video, the company hopes to expand its offerings to other schools throughout the country.

House Party Crashed

Virginia couple Tareq and Michaele Salahi, crashed the first state dinner held by the Obama's. Passing two security check-points, the couple mingled with Vice President Joe Biden and Chief of Staff Rahm Emanuel before exiting two hours later. The breach of security caused a full investigation by the Secret Service. Months later, speculation turned to White House social secretary Desiree Rogers who was criticized for not keeping a checklist of attendees as they entered the event. Rogers later resigned.

Google China

After a sophisticated cyber attack rooted in China, Google announced it would no longer censor search results on Google.cn, the Chinese version of the popular search engine. The Chinese government requires censorship of search results and websites to prevent security and state secrets from being jeopardized. China has the largest population of internet users in the world.

FDA Takes on Tobacco

The Family Smoking Prevention and Tobacco Control Act gave the FDA more power to control the tobacco industry. Under the new legislation, tobacco companies were no longer allowed to use words like "mild" or "low-tar" and were also prohibited from selling candy or fruit flavored cigarettes.

Tobacco related illnesses account for more than $100 billion in health care costs annually.

My Headlines

What were your favorite headlines of the year?

Late Night Shuffle

After 17 years, *Tonight Show* host Jay Leno passed the torch to fellow NBC late-night personality, Conan O'Brien—but not for long. The *Tonight Show* lost millions of viewers and Leno's new self-titled primetime show was deemed a flop. Just seven months after giving O'Brien *The Tonight Show*, NBC reversed course, returning Leno to his former seat. As part of the deal, NBC agreed to pay Conan $33 million, with $12 million going to his staff in severance. O'Brien hosted his last show on January 22nd, while Leno returned to *The Tonight Show* on March 1st.

Air France

An Air France Airbus Flight AF 447 flying from Rio de Janeiro, Brazil to Paris, France crashed into the Atlantic Ocean. None of the 228 people on board survived. Despite initial reports, the plane hit the water vertically, instead of breaking apart in mid-air. The crash was the worst in Air France's 75-year history.

Dangers of Fast Food

For two years, John Manley, a 50-year-old North Carolina man, complained of severe coughing, pneumonia, and vomiting. When doctors used a tiny camera to investigate his lungs they were shocked to find the cause—a piece of plastic. The plastic was removed and traced backed to a spoon from fast-food chain Wendy's after doctors recognized the eatery's logo.

The Next American Idol Judge

After eight seasons, *American Idol* judge Paula Abdul left the show. Emmy award-winning talk show host and comedian Ellen DeGeneres filled the seat and began judging duties when the show returned for its ninth season. Shortly after the show's return another *Idol* judge, Simon Cowell announced his intended split at the end of the season. It was reported that Cowell planned to develop a new talent show series based on the popular U.K. series, *The X Factor*.

Pirates Hold Captain Captive

After five days of being held hostage on the dangerous seas off the coast of Somalia, Captain Richard Phillips was rescued from his pirate capturers. In a tired moment, the pirates let down their guards long enough for U.S. Navy SEAL marksmen to take their shots, ending the lives of all three pirates. Days earlier, Phillips offered himself as a captive to the pirates in order to prevent them from seizing his vessel, the Maersk Alabama, ultimately protecting his fellow crewmen.

Science & Discoveries

Aerodynamic Seeds
"Helicopter seeds," the seeds from maple trees, have provided hours of fun for children but researchers were stumped as to what made the seeds hover. A team of Dutch and American scientists discovered the answer. When a maple seed swirls, a tornado-like vortex lowers the air pressure around the seed, sucking the wings upward to oppose gravity—insects, bats, and hummingbirds employ the same technique.

In Hot Water
Ocean temperatures around the world measured 1 degree higher than normal between June and August, averaging 62.5°F, according to the National Oceanic and Atmospheric Administration. August saw the warmest temps on record since 1880, when record keeping began. Though climate change is listed as a factor, meteorologists say the warming is also due in part to a natural El Niño system. Ocean heat puts coral reefs in harm's way and also contributes to melting Arctic sea ice and hurricane strength.

A Farmer's Friend
Even plants have joined in the text-messaging craze. Through SmartCrop™ infrared thermometers planted in soil, plants can "tell" farmers when they are hot or thirsty. Most crops have an ideal temperature for growth and these thermometers allow farmers to be notified by text message if a plant has risen above the ideal temp.

Growth Spurt
The Bristlecone pine is the world's longest-lived tree, sustaining ages up to 4,800 years. Recently, researchers found that these ancient trees are growing at a much faster rate than ever before as evident by its widening rings. The growth is presumably due to the increase in temperature in their high-altitude climate over the past 50 years.

Solar Energy Makeover
Developers have found two ways to make solar power panels more appealing to the average homeowner. First, underground panels use fiber optic cables to capture and distribute sun energy, instead of heavy panels. The second option is to incorporate shingle-like solar panels that have a thin copper film covering to absorb light energy into the roof. The Powerhouse™ Solar Shingle is expected to be less expensive and easier to install than full-size panels.

© WOLFRAM STEINBERG/dpa/Landov

Poo Power Payoff
In response to rising energy costs year-after-year, Shawn Saylor turned to an unlikely renewable source to power his family's dairy farm. Using the manure from 600 cows, Saylor used a process known as anaerobic digestion to generate energy. Saylor explained that this method produces a savings of about $200,000 per year with the ability to sell left over energy back to the power company.

Tiny T-Rex
History's fearsome Tyrannosaurus Rex may have had miniature ancestors. A newly discovered ancient creature known as "Raptorex" closely resembles its massive relative, at only a fraction of the size. Experts report it may have weighed only 150 pounds compared to T-Rex's 13,000 pounds. Raptorex would have existed 60 million years before T-Rex, and despite its size, would have touted an extremely powerful bite.

Let's Go Fly a Kite
Scientists from the University of California and the Carnegie Institution have discovered a way to create sustainable energy—through kites. High-altitude winds contain a vast amount of energy. By releasing kite-like wind turbines miles above the planet and tethering them to the ground, researchers believe they could create enough energy to supply electricity worldwide.

Cooling Sun
Scientists have discovered that the sun is at its dimmest in over 100 years. Typically, the sun undergoes 11-year cycles, culminating in the expulsion of solar flares and planet-sized debris. After 2008 the sun was expected to become increasingly hotter, but instead it was at a 50-year low for solar pressure and a 100-year low for sunspot activity. Although dimming of the sun has resulted in decreased temperatures in the past, the onset of global warming has likely counteracted this phenomenon.

Colossal Sea Monster
The fossilized skull of an ancient sea monster called a pliosaur was discovered along the Jurassic Coast of England. The skull—dating back 150 million years—measured nearly eight feet. Scientists believe the creature's full size was up to 52 feet long, making it the biggest pliosaur ever found. The dangerous sea predator could have eaten a T-Rex for breakfast!

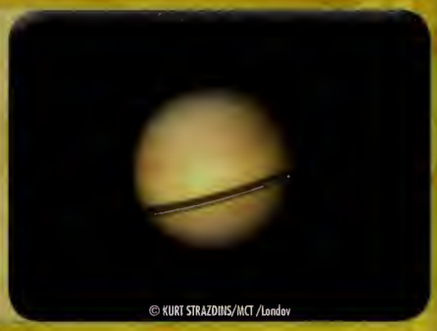
Carbon Capture
Professor Klaus Lackner of Columbia University has created a "synthetic tree" able to capture destructive carbon dioxide 1,000 times better than real trees. When the wind blows through the "leaves", carbon is trapped and converted to a liquid form. One unit could remove up to a ton of carbon dioxide from the atmosphere a day—the equivalent of 20 cars.

Robots Can Swim!

Mechanical engineers Kamal Youcef-Toumi and Pablo Valdivia Y Alvarado of MIT designed robotic fish that can swim and maneuver just like real fish. They hope to one day use the robots to help patrol bodies of water such as lakes and rivers, looking for pollutants and inspecting underwater structures.

Now that's a Ring

NASA's Spitzer Space Telescope discovered the largest ring around the planet Saturn. The never-before-seen ring is so colossal that NASA's Jet Propulsion Laboratory estimates that it would take 1 billion earth-sized planets to fill it. Composed of dust and ice particles, the ring's temperature is approximately -316°F.



Super Natural Glue

The asparagus beetle attaches its eggs using what is said to be some of the strongest natural glue in the world. A study discovered the almost invisible eggs require a pull-off force of "8,650 times higher than the egg weight." It's not unusual for an insect to produce egg glue and this research could lead to the discovery of other natural bonding agents.

H_2O on the Moon

For the first time, water was discovered on the moon's surface. NASA announced its significant find after reviewing data from an intentional satellite crash it conducted in search of water. The data also revealed there were more than just droplets but rather "a dozen, two-gallon bucketfuls." Experts said the discovery will open the door to other space exploration opportunities, including the potential for a sustainable lunar space station.

Glow-in-the-dark Puppies?

Scientists in South Korea cloned a genetically engineered litter of pups, enabling them to glow red under ultraviolet light. The intention of the experiment was to prove that if fluorescent protein can be created though the modification of genetic code, there may be a way to fix genetic flaws in humans by similar innovations in genetic coding.

My Discoveries

What were your favorite discoveries of the year?

Mighty Mice

In a scientific breakthrough, two labs in China bred the first induced pluripotent stem cell (iPS) mice, meaning they were the first of their kind developed from adult stem cells, instead of the more controversial embryonic cells. Scientists reprogrammed the cells back to an embryonic state where they could again develop into actual mice. This discovery is strong evidence that iPS cells have the potential to be used for treating disease.

Autism Brain Discovery

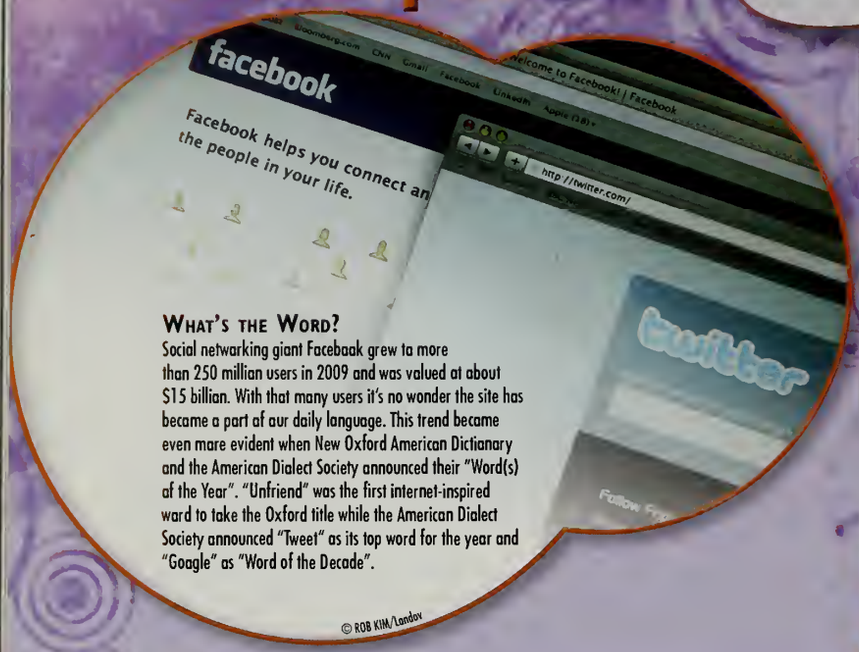
To learn more about the causes of autism, researchers conducted a study of MRI brain scans of 50 toddlers. Preliminary findings showed that on average, an area in the brain called the amygdala is 13% larger in young children with autism. It is believed that these children are born with normal-sized brains but later in the first year the area begins to grow larger. Autism is a developmental condition affecting as many as 1 in 150 children.

Tech Topics

Awarded Educational Toy of the Year at the 2009 Australian Toy Hobby and Nursery Fair.

Darth Vader Arm

The Darth Vader robotic arm, the latest and greatest in *Star Wars* related toys and collectibles, is easy to assemble with 45 pieces that snap together. Though just a toy, this robotic limb has the power to grip, turn, extend and hold objects.



What's the Word?

Social networking giant Facebook grew to more than 250 million users in 2009 and was valued at about $15 billion. With that many users it's no wonder the site has become a part of our daily language. This trend became even more evident when New Oxford American Dictionary and the American Dialect Society announced their "Word(s) of the Year". "Unfriend" was the first internet-inspired word to take the Oxford title while the American Dialect Society announced "Tweet" as its top word for the year and "Google" as "Word of the Decade".

The Bladeless Fan

It's been 127 years since the standard electric fan was introduced and people have been pretty satisfied. Now, the Dyson company, well known for its innovative vacuum cleaners, introduced the first bladeless fan. The Air Multiplier pulls air through its base, which is then pushed through a hidden vent into the circular head of the fan to create an uninterrupted breeze.

Disposable Timing Chips

After years of clunky timing devices and expensive last chip fees, runners will benefit from disposable timing technology. Using radio frequency identification (RFID), race organizers can put an integrated tag on race bib numbers to accurately record time during competition. The cost effective design also allows runners to simply throw away the chip after racing.

3-D TV

Riding a wave of popularity since the release of hit movies like *Up* and *Monsters vs. Aliens*, 3-D is coming to television. Manufacturers such as Sony, Panasonic, Mitsubishi, and JVC all reported working on 3-D televisions. In the future, viewers will have the option of watching programs in 3-D, utilizing special glasses to see the third dimension.

Seeing Eyeborg

Canadian filmmaker Rob Spence has lived with permanent damage to his right eye since the age of 11. In his efforts to regain vision, Rob partnered with a camera provider in an attempt to replace his eye with a wireless, battery-powered video camera for what is being called the "Eyeborg" Project.

Twitter on the Mind

Millions share their thoughts, opinions and updates every day (or hour) using Twitter. But University of Wisconsin doctoral student Adam Wilson's research revealed a new use—establishing a form of communication for those with extensive paralysis. Wearing an electrode-covered cap, Wilson focused his attention on flashing letters on a computer screen while his brain activity was monitored to figure out which letter he wanted. In the end he was able to tweet 23 characters with his mind.

Energy Saving Light

Philips Electronics introduced a new energy-efficient LED light bulb that uses just 10 watts (compared to 60 watts of the standard bulb) and generates the same amount of energy but lasts 25 times longer as its counterpart. The bulb may save as much electricity as is needed for 17.4 million households in a given year. Philips Electronics LED bulb was entered into the U.S. Department of Energy's L Prize competition and if it takes the prize, the company could be awarded $10 million in cash and federal contracts.

Beatles Rock Again

The Beatles rocked the music industry, re-releasing their famed anthology and launching their first ever video game. Decades after their last album was recorded, all 12 of The Beatles' studio albums were re-released in a new digitally re-mastered format. *The Beatles: Rock Band*, an experiential video game, features 45 of their hits and offers players an option to relive music history by playing through the tracks chronologically.

Cyborg Beetles

Ripped from the pages of science fiction comes the government-funded cyborg beetle. Development began on a project that has scientists implanting miniature electrodes into beetles to enable them to control the insects' every move via remote control. Though still in testing, the high-tech critters could one day be used as military spies.

Smart Thermostat

EnergyHub™ Dashboard was introduced addressing both the environmental and recession-minded concerns of today. The device wirelessly tracks your appliances and informs you of how much energy you are using. It also tells you how much your usage costs so you can make adjustments, conserve energy and pocket the savings.

Reality Gaming

Video games got a dose of reality by taking their inspiration from the news. Games like *Hero on the Hudson*, *Swinefighter* and *Trillion Dollar Bailout* allowed users to be a part of the headline-making stories. The two-dimensional games, mostly developed for internet or cell phones, were simple, allowing creators to release them quickly after the actual events took place.

Tetris Turns 25

With an undeniable place in video game history, the popular puzzle game *Tetris* turned 25. A series of new features for a new generation were announced, such as *Tetris Acorn Drop*, a concept taken from the movie *Ice Age*.

In its lifetime, Tetris has been purchased or downloaded more than 125 million times.

Walk this Way

Before iPods became the "it" way to listen to music on the go, there was the Sony Walkman. Once the leader in music technology, the audio cassette player and radio turned 30 this year. The grandfather of personal music devices allowed users to take their favorite tunes anywhere, ultimately paving the way for the Discman, the MP3 player and the iPod.

Smart Phones get Smarter

The smartphone continued its rise in popularity as on-the-go technology evolved. From the popular Blackberry® series to the iPhone, smartphones offered everyone from business professionals and techies to senior citizens and even children hand-held access to the internet and continuous connectivity to the world. Additionally, 2009 was deemed "the year of the app" by many, with available applications surpassing 100,000 (and over 1 billion downloads) that can do just about anything imaginable—from efficient and practical to simple and fun.

The New Face of Hollywood

Legendary filmmaker James Cameron reshaped the movie industry by helping develop the advanced camera technology used in his blockbuster hit Avatar. Cameron helped pioneer a lightweight, two-lens camera that can shoot dynamic live action footage in 3-D and a head-rig camera that accurately records facial expressions. The result is a stunningly realistic, digitally created movie that captures even the most obscure details on an actor's face. The computer generated characters, like those on Avatar's fictional planet of Pandora, appear more realistic than ever before.

Dirty Work

A DustCart robot, reminiscent of Disney's *WALL-E*, recently took to the streets of Italy. The robot, which will be tested in cities around the world, responds to residents who place their trash and recyclables on the curb and call for pick up. It fills up its belly with unwanted waste, much the same as the traditional dump truck. Though not as efficient as a fleet of trucks, the DustCart monitors air pollutants and is much quieter, running on lithium ion batteries.

E-Book It!

The Amazon Kindle wireless e-book reader has been growing in popularity since its introduction nearly three years ago. During the holiday season, the mobile reading device boasted record performance becoming the most gifted item in Amazon's history selling more e-books than physical books for the first time ever. Proving a growing trend, Barnes and Noble, Inc. introduced its own electronic reader, nook™ which took the number two spot on TIME Magazine's Top Gadgets of 2009.

Yankees Win 27th Title
The New York Yankees defeated the defending champion Philadelphia Phillies in game six of the World Series. The win marks the 27th World Series title for the Yankees, the most titles in all of sports, and the first win in their $1.5 billion new stadium. Hideki Matsui was named series MVP with a record-setting six RBIs in game six, while Andy Pettitte became the pitcher with the most wins in the post-season, claiming his 18th victory.

Buehrle Pitches Perfect
Chicago White Sox pitcher Mark Buehrle tossed a gem of a game on July 23rd to become only the 18th player in history to pitch a perfect game. The feat came two seasons after he threw a no-hitter, which makes him just the 26th player to throw multiple no-hitters in his career.

Saints Go Marching
For the first time in its 43-year franchise history and its first appearance at the big game, the New Orleans Saints won the Super Bowl beating out the Indianapolis Colts. With a stunning defensive performance and unstoppable offensive drive that dominated three quarters, the Saints claimed its 31-17 victory. Later, team quarterback Drew Brees was honored as Most Valuable Player having tied the record for most completions in a Super Bowl, finishing with 32 completions out of 39 passes for 288 yards.

Champion Mom
Kim Clijsters rejoined the world of tennis in grand fashion. After retiring from the sport in 2007 to start a family, Clijsters returned to win the US Open. By defeating Caroline Wozniacki in the finals, the Belgian tennis pro became the first unseeded woman ever to win the 2009 US Open; and the first mother to win a Grand Slam title since Evonne Goolagong Cawley at Wimbledon in 1980.
